**Read the following passage then answer the questions below:**

The Arabian Desert is located in the continent of Asia. It is a rich source of oil and gas. Arabs are the primary population of it. It lacks the wild life because of the weather conditions. Plants and animals have adopted ways to live and **survive**. Heat, sunlight, and lack of water are major problems in the desert environment. Animals have the ability to hide from the drying sun during the day; especially the camels.

**They** are called the ship of the desert, because of their unique ability to save and store water for a long time. In summer, camels can live for about five days without drinking water. During winter, camels can live six or seven months without drinking water. In the past people used camels for travelling.

Nowadays people like camping in the desert with their children, living in tents, watching the sunrise and the sunset as well, playing games, making barbecues, and drinking coffee. They like to spend their time there.
